NBI Clearance No.: D422GJJL40-CB1216446

SUMMARY

Motivated Bachelor of Science in Information Technology graduate majoring in Web and Mobile Technologies with hands-on experience in full-stack web and mobile application development. Experienced in developing user-centered applications, collaborating in team-based projects, and solving technical problems through academic and internship experience. Equipped with foundational knowledge in cybersecurity, networking, Python programming, computer hardware, and technical support through Cisco Networking Academy training. Adaptable, quick to learn new technologies, and committed to delivering reliable IT solutions.

EDUCATION

Pangasinan State University - Urdaneta City Campus **July 2026 (Expected)**

Bachelor of Science in Information Technology Major in Web and Mobile Technologies

- **Relevant Coursework:** Full-Stack Development • Mobile Application Development • UI/UX Design • Networking • Cybersecurity • Computer Hardware & Technical Support

TRAINING EXPERIENCE

When In Baguio Inc. | Full Stack Developer Intern | Baguio City **Feb 2026 - Present**

- Assisted in developing and improving core features of the When In Baguio mobile application using Flutter, focusing on UI enhancements and basic performance improvements.
- Supported the development and maintenance of the backend operations website using React.js and Node.js, ensuring smooth data handling and admin workflows.
- Helped deploy and manage web services using cPanel, including basic hosting setup, file management, and system updates.

PROJECTS

PSU OJT Management and Monitoring Portal | Lead Developer & Front-End Lead

- Led the development of an OJT management and monitoring web portal using Node.js, focusing on front-end development and core feature implementation. Coordinated the team to ensure smooth integration and functionality for student and admin use.

PCVision AR (Capstone Project) | Lead Developer & Researcher

- Led the development and research of an augmented reality (AR)-based computer vision system designed to enhance interactive learning and object recognition, coordinating both technical implementation and research documentation.

Rider Mobile Application Development | Full-stack Developer

- Developed a full-stack rider mobile application, contributing to both mobile (Flutter) and backend system development, focusing on core features, API integration, and system functionality improvements.

Skylens | Mobile App Developer

- Developed a Flutter-based mobile application integrated with the OpenWeather API to provide real-time weather detection based on user geolocation. Implemented dynamic location-aware features that update weather data automatically depending on the user's current position.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, Python, Java, C++, PHP, SQL, HTML/CSS, Dart
- **Frameworks & Technologies:** React.js, Laravel, Flutter, Node.js, Tailwind CSS
- **Databases & Cloud:** MySQL, MongoDB, Firebase
- **Development Tools:** Git, GitHub, Postman, REST APIs, Vercel, cPanel
- **Networking & Cybersecurity:** Networking Fundamentals, Basic Network Defense, Cybersecurity Fundamentals
- **Computer Hardware & Support:** PC Hardware, Hardware Installation, Upgrades, Troubleshooting, Technical Support
- **Design:** Figma, Canva, UI/UX Design, Wireframing, Visual Hierarchy

CERTIFICATE

- **Cisco Networking Academy:** Introduction to Cybersecurity • Networking Basics • Python Essentials 1 & 2 • Network Defense • Computer Hardware Basics • Hardware and Upgrade Support
